NUMB. 2498

FRIDAY, JUNE 24. 1743.

Yesterday arriv'd the two Mails that were due from Flanders.

Genoa, June 7.

THE Government here is in the greatest Consternation. The lesser Council has continued sitting every Day for this three Weeks, without our knowing exactly what is the Object of their Deliberations; but it is generally believed that they relate to the Island of Corsica, which some fancy we are on the Point of selling to the Spaniards; and others imagine, that a private Treaty is carrying on with the Malecontents, who, it is said, insist now upon treating directly with us, without the Interposition of any Foreign Power whatsoever, and that they have reduced the Conditions of their Submission to three Points; 1. Their not being charg'd with any new Taxes; 2. The being allowed to bear Arms; and 3. Their having a certain Number of Deputies constantly resident in this City, to take care of their Concerns.

Dresden, June 18. Count Buhlau, our Minister at the Court of Berlin, arriv'd here on the 10th, in order to make a Report of the Success of his Negotiations; and it is thought that he will quickly return thither, in order to put the last Hand to them. The Marriage of M. Desalleurs, the French Minister at this Court, to the Princess Lubomirski, was celebrated with the utmost Magnificence, and we apprehend, that he will speedily demand the Permission of his Court to enter into the Service of ours. The following Letter from Count Maurice to his Majesty is handed about here.

From the Camp near Straubingen, June 4. 'I cannot conceal from your Majesty the very bad Situation of your Affairs. All our Enterprizes have miscarried, and from the Beginning of the War, Things were never at such a Crisis. I cannot divine the Fate of the two Armies, but this is most certain, that Things go daily worse and worse. Jealousies and Misunderstandings increase continually between the German and the French Officers; nor is it in the Power of his Imperial Majesty to apply any Remedy. Tho' it is uncertain how all this will end, yet this I will venture to lay down, that if France does not send speedily a strong Reinforcement into Bavaria, that Electorate must again fall into the Hands of its Enemies, &c.

The Captains Reisky and Richter, and Lieutenant Galleci, Officers in the Regiment of Soulkowsky, formerly Lowendahl, have been set at Liberty, at the earnest Intreaty of Count Lowendahl, who, it is said, will carry them with him to Naples.'

Hague, June 28. We are assur'd, that at a late Conference between the Baron de Reischah and the Lords of the Regency, concerning the March of the Auxiliaries granted for the Service of the Queen of Hungary, they were pleas'd to tell his Excellency that all the necessary Dispositions were made for the moving of that Corps immediately, and that they should absolutely serve wherever the Queen, his Mistress, thought they might be of most Use.

AMERICA.

Newport, May 5. Wednesday last was our general Election according to Charter; and his Honour, Covernor Ward, who was with Difficulty persuaded to serve the last Year, having declar'd his fix'd Resolution not to accept the Office again, the Hon. William Green, Esq; late Deputy-Governor, was chosen in his room to be Governor, the Hon. Joseph Whipple, Esq; Deputy-Governor, and the Hon. Peter Bours, William Ellery, Ezekiel Warner, Richard Fenner, John Dexter, Daniel Howland, Philip Arnold, James Arnold, Daniel Coggeshall, and Jonse Helme, Esqrs, Assistants; James Martin, Esq; Secretary; Daniel Updike, Esq; Attorney-General, and John Gardner, Esq; General Treasurer. Philip Arnold and Ezekiel Warner, Esqrs, refusing to serve, William Burton and Philip Greene, Esquires, were chosen in their room the next Day by the General Assembly; and Tho. Ward, Esq; Continued Naval Officer.

Boston, May 5. Last Friday in the Afternoon we had some Thunder and Lightning, which struck the Main-Mast, Main-Top-Mast, and Main-Top-Gallant-Mast of a new Ship in our Harbour, (Captain Scut) ready fitted for the Sea, and shattered them so much, that the Ship must have three new Masts. The nitrous Particles were so subtile, that they found a Way between Decks, and took a Piece out of one of the Pumps, without leaving the least Mark where they entered the Deck.

The same Day the Lightning struck a large Locust Tree in Cambridge, broke it off, and carried the Body quite a-cross the Road.

At a general Town Meeting held here on Wednesday last, the following Gentlemen were chosen to represent the Town in the great and general Court, or Assembly, to be held here on Wednesday the 25th Instant, viz the Hon. Thomas Cushing, Esq; Mr. Timothy Prour, Thomas Hutchinson, and Andrew Oliver, Esquires.

Yesterday a Brigantine arrived here from Saltertuda, by whom we learn, that she came out with 36 Sail more bound to the Northward, and left the Convoy, Captain Ellis, eighteen Days ago, bound to New York, but who might soon be expected on his Station here. 'Tis said they left Salt enough in the Pond at Saltertuda to load some Hundreds of Vessels.

HOME PORTS.

Dover, June 22. Wind N. E. Arrived the Success, Hill, from Lisbon.

Deal, June 22. Wind N.E. Came down and sailed the Lisbon Packet, Talbot, for Lisbon; and the Cleeve, Rice, for Falmouth. Arrived his Majesty's Ship the Dorsetshire from Portsmouth; the Terror Bomb and the Duke of Bedford's Yacht from the Westward; and the Dispatch Tender. Remain in the Downs the Shrewsbury Man of War; the Matilda, Wild, for Gibraltar; and the Dutch Ship for East-India.

Gravesend, June 22. Yesterday passed by the Leghorn Galley, Ellis, and the Queen Ann, Johnson, both from Norway: And this Day, the St. Johannes, Dyrhus, from Norway; the Nancy, Chicken, and the Prince William, Hind, both from Rotterdam; the Loyal Jane, Maples, and the Willingmind, Bearfoot, both from Dunkirk; and the Mary, Oliphant, from Cape Fare.

LONDON.

Whitehall, June 23. This Morning Mr. Parker, one of his Majesty's Messengers, arrived at the Duke of Newcastle's Office with the following Letter from the Right Hon the Lord Carteret to his Grace.

Destingen, June 16, 1743. My Lord, His Majesty (God be praised) has this Day gained a very considerable Battle. The French passed the Maine at this Place with about 25,000 Men, and have been forced to repass it with considerable Loss. I write this from the Village near the Field of Battle, which the French were in Possession of; by which Means we have secured our Conjunction with the Hessians and Hanoverians, in Number above 12,000, which are within two Leagues of us; and to intercept whom, the French made this hazardous Attempt, which has failed them. His Majesty was all the Time in the Heat of the Fire; but is in perfect Health. The Duke receiv'd a Shot in his Leg, which pierced the Calf of his Leg; but the Bone is not hurt: He is very well, and in high Spirits. I must refer the Particulars of this great Affair till To-morrow, or next Day. General Clayton is killed; and we have taken several General Officers Prisoners, and many Officers of the French King's Houshold in their fine Cloaths. The Army lies all Night under Arms. I am in a Cottage with Marshal Neiperg. The Austrians behaved themselves with great Gallantry: The Duke d'Aremberg is wounded with a Musquet-Shot in the Breast, This is a good Beginning of the Campaign, the Emperor's Auxiliaries having received a very considerable Check; and they were the Aggressors.

I am ever, with the greatest Truth, and Respect,

My Lord,

Your Grace's most humble, and most obedient Servant,

CARTERET.

P. S. The Hanover Artillery has had a considerable Share in this Victory. The Battle began at Ten in the Morning, and lasted to Four; when the Enemy repassed the Maine with Precipitation.

The last Advices from Bavaria say, that Prince Charles of Lorrain was making the necessary Dispositions for attacking Marshal Broglio in the Camp near Ingoldstadt, where it is said he was intrench'd in two Islands of the Danube. These Letters are dated the 15th of June, and it was supposed his Highness would attack the Enemy the next Day.

They writee from Nuremberg, from Ulm, and from Dusseldorp, That his Imperial Majesty has actually concluded a Separate Peace with the Queen of Hungary; and that he had sent Orders to Marshal Seckendorff, to declare a Cessation of Arms in his Army. This Peace is said to have been in a great Measure owing to the Intercession of the Empress, the Elector of Cologne, and the Prince Royal and Electoral of Bavaria.

The Marquis Palleotti (descended from the most noble Family of the Dudleys, Dukes of Northumberlan) having heard a Spanish Captain at Rimini speak disrespectfully of the Queen of Hungary, immediately call'd him to an Account, kill'd him on the Spot, and happily made his Escape to Mantua.

Yesterday Charles Cutts, Esq; Citizen and Grocer, paid his Fine into the Chamber of London, to be excus'd serving the Office of Sheriff of this City.

As did William Quilter, Esq; Citizen and Leatherseller.

The latter End of last Week Mr. John Shipey, an eminent Jeweller, was married to Miss Anne Prichard, a young Lady with a handsome Fortune.

Last Wednesday a Presentation pass'd the Great Seal to enable the Rev. Mr. Henry Goodall, to hold the Rectory of Pashley, alias Pattisley, in the County of Norfolk, and Diocese of Norwich.

The same Day a Dispensation pass'd the Great Seal to enable the Rev. John Stanley, Brother to the Right Hon. the Earl of Derby, to hold the Rectory of Liverpool in the County of Lancaster, and Diocese of Chester, together with the Rectory of Bury in the said County, and Diocese aforesaid.

An Infallible CURE
For Barrenness *in* Women, *and* Impotency *in* Men.
By Superlative ENLIVENING DROPS,
Which in a few Days render both Sexes Prolifick in a most wonderful Manner.

HUndreds of Ladies who were deem incurably Barren, and very many who thought themselves too old to bear Children, have immediately conceived after using three or four Doses of them only; and vast Numbers of Gentlemen by taking them, have presently become capable of propagating their Species, who before, thro' either Imbecility, Age, imagin'd it impossible.

They almost instantly renovate the vital Ferment of the Blood and Juices, rectify the languid State of all the Fluids, rouse, fire and increase the Spirits, invigorate the Nerves, restore Joy, Warmth, and cause a sparkling Gladness and ardent Courage to flow in the Heart, and expand itself thro' the whole human System, so as sensibly to enliven and invigorate all the animal Faculties and corroborate or strengthen the whole Body, as well as the Parts appropriated to Generation, and do infallibly cure Barrenness in one Sex, and Impotency in the other, from what Cause soever proceeding, as Thousands have experienced.

They are also pleasant to take, are Cordial to the Stomach, create an Appetite, and procure a good Digestion, beyond any thing known in the World. And are to be had only at Mr. RADFORD's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard, in the Strand, Price 5 s. the Bottle, with Directions.
